**Project Name:** HULTS/Owner

**Issued Date:** 07/02/2020

We would like to extend our existing gas line to an outdoor area for a grill and firepit. About 2 years ago, we converted our 2 wood-burning fireplaces to natural gas. All work was performed by a licensed contractor, and the work was permitted and inspected. At the time the gas lines were added, we had the contractor install a "T", so we could plan for an outdoor gas line in the future. We would now like to connect to the "T" to extend the gas line outdoors. The location of the "T" is approximately 12 feet to the exterior wall. Although we are not experienced in gas line installation, we have a family friend who used to work in the field and will assist us. I have also contacted a licensed contractor to discuss the project and necessary steps for completion, so as to be fully in compliance with all applicable code statutes.
